RE: South Dayton Dump and Landfill Site, 1975 Dryden Road (aka) Springboro.
Pike, Moraine, Ohio
General Notice of Potential Liability and
Followup Request for Information

Dear Ms. Bentley:

Please treat this letter as a followup request for information for all current and former General Motors (GM) facilities related to the above referenced site. The United States Environmental Protection Agency (U.S. EPA) initially sent you an information request on December 10, 2002. General Motors prepared a response dated February 7, 2003 which focused on GM's Moraine Assembly and Engine Plants. A General Notice of CERCLA liability was on December 22, 2005.

An e-mail was sent to you on November 28, 2005 which requested the location of former and current GM facilities in the Dayton area. In your January 11, 2006 response, locations were provided and indications were made as to whether GM still owned these facilities. You also suggest that USEPA contact the current owners for more information.

The following facilities were identified as currently owned by GM:

Frigidaire

Plant 2	4100 Springboro Pike, Moraine
Plant 3	2601 Springboro Pike, Moraine
Plant 4	3600 Dryden Road, Moraine
Plant 5	Springboro Pike (South of Plant 2)

EPA Region 5 Records Ctr.

369002

The following facilities were identified as no longer owned by GM:

Inland, 2701 Home Avenue

Delco Moraine Division, 1420 Wisconsin Boulevard

Plant #2

Delco (Dayton Area) 3100 Needmore Road

Frigidaire (currently Harrison Radiator) 300 Taylor Street

In regard to facilities (identified above) still owned by GM and/or former GM facilities where you have access to the records, please respond to the request for information as specified in the December 22, 2005 letter.

In regard to facilities no longer owned by GM, please comply with the following information requests:

1. Identify a contact and a storage location for all records and documents as outlined in the December 22, 2005 letter for all former GM facilities. Include a contact name, address and phone number;
2. Provide a chronology for the sale of all properties formerly owned by GM related to the site including all Delphi facilities;
3. Provide a copy of documents related to environmental concerns, liabilities and insurance related to the spinoff and or sale of all former GM facilities. Provide a complete document.

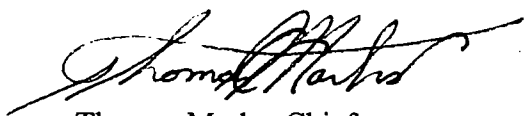

The USEPA also requires a response on whether GM will be a willing participant in the RI/FS process. USEPA has not received a written response as required in the December 22, 2005.

Your responses to both the notice of potential liability and the information requests should be received within 30 days of your receipt of this letter. Your response should be sent to:

Mike Rafati
U.S. EPA - Region 5
Remedial Enforcement Support Section SR-6J
77 West Jackson Boulevard
Chicago, IL 60604

If you have any questions, call Thomas Nash of the Office of Regional Counsel at 312 886-0552. Due to the nature of the problems at this Site and the attendant legal ramifications, U.S. EPA strongly encourages you to continue to work with the existing PRP Group and to submit a written response to U.S. EPA within the time frame specified herein. We hope you will give this matter your immediate attention.

Sincerely yours,

A handwritten signature in black ink, appearing to read "Thomas Marks", with a stylized flourish extending from the end.

Thomas Marks, Chief
Enforcement Investigation and Search Section
